

COVID-19 Testing Sites at CVS Locations

CVS has opened 10 COVID testing sites in NE Ohio (19 in Ohio) and the list is attached. If you, your family, your coworkers, clients or their employees need a test, just go to www.cvs.com and register at one of these locations. It's a self-administered drive through process and results are provided via a CVS mychart account within 2-4 days. This is a test to detect active infections, not prior infections (antibody test).

CITY	ADDRESS	CITY	ADDRESS
